

March

Have you noticed the increasing bird song and the busying toing and froing?

Have you noticed any new birds that you hadn't noticed before?

Please continue to provide plenty of food if you can!

Continue to keep your eyes peeled for the butterflies' first appearance!

We previously provided information on how to create a container garden for wildlife. We would love to see your work if you have been able to do so! 😊

March – How To – Part 2

It doesn't matter what size your space is, there's always room for wild Flowers! Set aside an area of lawn, part of a border, or even a large container and watch the bees and butterflies buzzing!

You'll find ideas [here](#) of how this can be achieved.
